

## **Hospitality Management, AAS**

### **School of Culinary Arts and Hospitality**

---

#### **Program Description**

The Hospitality Management AAS Degree Program is planned to meet the industry needs of various levels of management positions in commercial food service operations such as restaurants, hotels, and resorts and non-commercial food service operations such as long-term care, retirement centers, nutrition programs for children and elderly, hospitals, and food service management companies. The program includes classroom and laboratory experiences and requires students to complete a capstone internship. Students are responsible for securing an internship site that meets the program requirements. This program accommodates both part-time and full-time students. Students are required to adhere to the department policies and procedures as stated in the School of Culinary Arts/Hospitality Student Handbook.

Requirements for the program include but are not limited to:

- Laboratory Uniform
- Tool Kit
- Business Attire
- Special attire may be required at the internship site
- Transportation to the internship site is required.

Graduates of this program are eligible to become members of the Association of Food and Nutrition Professionals and to complete the certification examination to become a Certified Dietary Manager (CDM) if they take the FSM 159 Nutrition or CUL 243 Nutritional Cooking and Baking course.

#### **Career Opportunities**

Graduates of the Hospitality Management Associate Degree program have accepted jobs with the following titles: general operations manager, catering manager, restaurant sales representative, restaurant manager, food purchasing agent, training and development specialist, front of the house manager, food service managers/supervisors, lodging operations manager, lodging assistant manager, concierge representatives, special event coordinator, sales manager, school food service managers, and nutritional services managers/supervisors.

#### **Program Learning Outcomes**

Upon successfully completing this program, students will be able to:

- Apply organizational and communication skills in supervising food production
- Implement cost control procedures applying mathematical concepts of profit and loss
- Enforce and adhere to sanitation and safety standards
- Write job descriptions, specifications and work schedules for employees
- Design menus, analyze specialized meal patterns and write standardized recipes
- Demonstrate the ability to work as part of a team
- Evaluate food quality and meal acceptance
- Utilize interpersonal skills to supervise staff and to communicate with the team
- Procure and receive supplies and equipment
- Retrieve and manage information using the latest technology
- Utilize technology to plan, organize and document information
- Utilize basic practical mathematical skills
- Assist in the organization, development, implementation and evaluation systems
- Practice the technical skills needed for successful daily operations
- Analyze and apply marketing objectives and sales strategies to the operation necessary for the management of the facility.
- Analyze records, financial data, and systems of operation
- Identify and satisfy diverse customer expectations.
